

THE CALEDONIAN.

FACTS AS TO ADVERTISING.—The advertisements in an ordinary number of the Caledonian exceed 2,500; the annual advertising bill of one London firm is said to amount to £10,000; and three others are mentioned who each annually expend £10,000. The expense of advertising the eighth edition of the Encyclopedia Britannica is said to have been £3000. In great cities nothing is more common than to see large business establishments, which seem to have an immense advantage over all competitors by the wealth, experience and prestige they have acquired, drop gradually out of public view, and be succeeded by firms of smaller capital, more energy, and more determination to have the fact that they sell such and such commodities known from one end of the land to the other. In other words the new establishments advertise; the old die of dignity. The former are ravenous to possess out of obscurity into publicity; the latter believe that their publicity is so obvious that it cannot be obscured. The first understand that they must thrust themselves on public attention or be disregarded; the second, having once obtained public attention, suppose they have secured it permanently, while in fact nothing is more characteristic of the world than the ease with which it forgets.—*Boston Transcript.*

R. R. CONNOR'S.—A bill granting a charter for a railroad from Chatham Four Corners, N. Y., to the state line, for the purpose of connecting the Harlem Railroad with the Western Vermont Railroad at Bennington, has passed both branches of the New York legislature.

Some paper having made the statement that butter should not be kept in a room with kerosene oil as the kerosene would spoil the butter—giving it a peculiar flavor—a contemporary remarks that some of the butter now on display is enough to spoil kerosene!

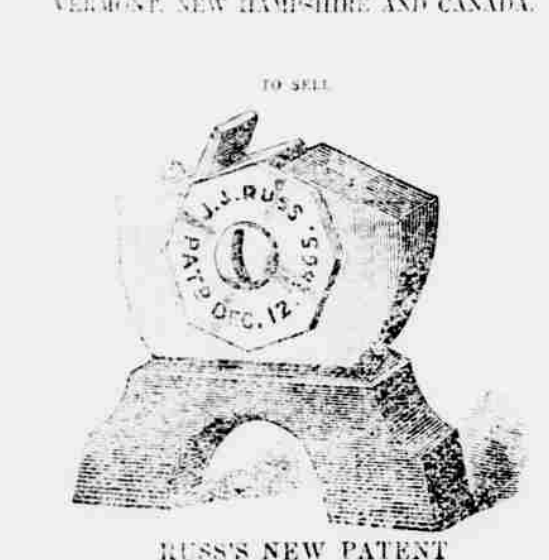

TO BE VETOED.—It is said that a First-Class Democrat, who is more noted for his political zeal than wisdom, on being informed that Connecticut had gone Republican, indignantly replied: "I don't care a fig, the President will veto it."

Plug up your holes for spiles.—In maple trees, as soon as sugaring is over, and preserve your trees. They will decay rapidly if you do not. Use soft wood and saw off with the bark. Use only a half-inch auger in tapping.

A variety of hair-dressers say the proper time for marriageable young ladies is "waiting maids."

together with other outbuildings; 70 acres of land, with the entire water privilege at West Danville, Vt., which is a good, hot, and best in the state. There are at least two of the best water privileges for woolen or cotton factories that can be found, as the natural stream affords a sufficient quantity of water, which is warm in winter and nearly as soft as rain water in summer. There are also two thousand acres of land, with 5 feet of back water. The above property will be sold at a bargain, all together or in lots to suit purchasers. Any credit given or cash advanced by the subscriber, will be repaid by the estate as soon as possible, as I am otherwise engaged, and will sell at a bargain. Call and see. W. R. LAIRD, West Danville, Feb. 20, 1866. 95-1

S. D. & H. W. SMITH'S American Organs.

The most perfect and beautiful musical instruments in the world. Seventeen First Prizes won at all the State Fairs during the month of October.

With a reputation established solely upon intrinsic merits, the American Organs have taken the highest rank as First-Class instruments, and are justly acknowledged to be unequalled.

The attention of the public is called to the American Organ as an instrument of great improvement, adapted to all kinds of music, particularly the connected organ, style with its sustained tones and harmonies. Sacred music, so much desired in American homes.
